PROFILE

Unity and XR developer with experience in building immersive VR applications, interactive 3D experiences, and web-integrated intelligent systems. Background includes EdTech startup development, game development training, and robotics education for children. Passionate about combining immersive technologies with real-world applications in education and business

PROFESSIONAL EXPERIENCE

Instructor 05/2026 – Present | Sfax,Tunisia
Declitech

- Delivered game development courses for beginner learners.
- Conducted robotics workshops for children focused on STEM fundamentals and hands-on learning.

VR & AI Developement intern 02/2026 – 06/2026 | Tunis,Tuinisia
Instar 

- Developed an immersive VR furniture showroom using Unity for Meta Quest
- Designed and developed a full-stack e-commerce web application.
- Integrated NLP and YOLO object detection to enhance application intelligence and user experience.

Educational department Manager 10/2024 – 04/2025 | Sfax,Tunisia
Sci-Kids tech hub

- Coordinated instructors and built strong external collaborations.
- Teached kids robotics basics.
- Integrated XR technologies into kids curriculum.

AR IoT Lab App Developer 04/2024 – 06/2024 | Sfax,Tunisia
Tunisia Development Systems

- Developed an AR system visualizing IoT components with real-time data streaming.
- Utilized Firebase and ESP32 to collect, process, and synchronize sensor data.
- Applied basic data-handling logic, contributing to understanding data pipelines.
- Wrote an AR development guide later adopted at the university level.

Web developer intern 06/2023 – 07/2023 | Sfax,Tunisia
MTD group

- Contributed to a client-facing web app using CakePHP4, improving performance and UX.I
- plemented backend features, optimized codebase, and supported deployment processes.

EDUCATION

Masters in Computer Engineering 09/2024 – Present | Sfax,Tunisia
Enet'com

ICT bachelor 09/2021 – 06/2024 | Sfax,Tunisia
Enet'com

High school diploma 06/2021 | Sfax,Tunisia
Mongi slim high school

CERTIFICATES

Open Startup Tunisia (OSTX) Cohort, 2025

- Developed an AR-based educational application featuring interactive learning modules for kids.
- Selected among top Tunisian startups for OSTX Bootcamp, iterated product based on expert feedback.

ORGANISATIONS

AIESEC in SFAX 02/2026 – Present | Sfax,Tunisia
Head of Buisness Developement

- Managed strategic partnerships with key stakeholders.
- Generated new partnership leads through outreach and networking.
- Represented AIESEC in Sfax at national conferences and organizational events.

SKILLS

AR/VR & XR Technologies
Unity,AR foundation,Vuforia

Programming
C#, JavaScript basics, scripting, Robot Framework

AI / Integration
NLP integration, YOLO object detection, API integration

Hardware
ESP32, sensor integration, IoT systems, Android , Meta Quest

Tools
Visual Studio Code, Unity Editor, GitHub

Soft Skills
Problem Solving & Analytical Thinking, Communication & Public Speaking, Team Leadership, Adaptability & Fast Learning
